

GENDER EQUALITY

FOR AIRHCONSEIL

Hugo **KINGKEOMANIVONG**

Keerthana **BHASKAR**

Shauryaman **SINGH**

Introduction & Objective

A data-driven gender equality audit designed to assess and improve workplace equity through comprehensive analysis of key metrics and indicators.

Legal and ethical Context

- Compliance with French gender equality index requirements
- Promote a path that respect moral and ethical environment between workers

Strategic Goal

- Generate actionable insights into the enterprise's members staff
- Produce clear visualisation of data for clear analyze

Outcome

- Enhanced transparency and progress toward pay equity
- Propose solutions and strategic recommendations
- Detect and understand bias

METHODOLOGY OVERVIEW - CRISP-DM FRAMEWORK

BUSINESS UNDERSTANDING

- Defining gender equity metrics and organizational objectives
- Align data science goals with business needs
- Organize division of work, tools and resources needed

DATA UNDERSTANDING & CLEANING

- Python scripts for data validation and preprocessing to ensure dataset quality and reliability
- Develop clear and reliable project environment

VISUALISATION & DASHBOARD

- Python visualizations with Plotly to transform insights into interactive reports
- Develop a python user-friendly dashboard using Streamlit for a localhost page

DEPLOYMENT & EVALUATION

- Monitoring and impact assessment
- Bugs correction and reliability tests
- Github shareable deployment

WE WILL NOW GO ON A
LIVE DEMONSTRATION
AND **ANALYSIS**
OF THE PROJECT DIRECTLY
ON THE
STREAMLIT DASHBOARD

Ethical & Legal Compliance

GDPR Adherence

Implements **anonymization** and **data protection** protocols meeting EU regulatory standards.

Bias-Aware Analysis

Methodology to **identify** and **mitigate** analytical **bias** across all datasets.

Transparent Methodology

Open documentation and **reproducible** analysis for full **auditability**.

Regulatory Compliance

Meets French **gender equality index** requirements and local labor laws.

Strategic Recommendations

Implementing data-driven equity measures requires comprehensive organizational commitment and structured actions.

FIX LARGEST PAY GAPS FIRST

Conduct immediate, in-depth salary reviews in the Marketing, R&D, and Commercial departments to conduct a direct review with concerned workers of department and correct the most extreme disparities depending on the situation

TRANSPARENT PROMOTION GUIDELINES

Establish gender-neutral advancement criteria and publish promotion metrics for accountability. Like a clear table of salary for example.

PARENTAL SUPPORT PROGRAMS

Implement childcare support, flexible work, and career protection for returning parents (especially mothers).

DEPARTMENT EQUITY SCORECARD

Create quarterly tracking dashboard with accountability metrics to monitor progress.

A complete list of recommendations are available on the project report.
